

## Trichomonas

vaginal pH  $>4.5$   
purulent, malodorous vaginal discharge  
Strawberry cervix  
older population

Dx: NAAT  
Wet mount  
Swimmers

Tx: Metronidazole or Tinidazole PO  $\times 1$   
or BID  $\times 7$  days  
disulfiram rxn

## Gardnerella (BV)

vaginal pH  $>4.5$   
thin, off-white vaginal discharge  
fishy odor  
Spontaneous abortion

Dx: NAAT  
Wet mount  
clue cells  
whiff test

Tx: Metronidazole  $\times 7$  days  
Clindamycin  $\times 7$  days

## Klebsiella granulomatis

Dx: CBC manual dif  
Donovan bodies  
safety pins

Progression:

small, painless nodules  $\rightarrow$  ooze pus + blood  $\rightarrow$  tissue destruction

Tx: Azithromycin

## Haemophilus ducreyi (chancroid)

Dx: NAAT  
school of fish G- rods

Progression:

red papules  $\rightarrow$  painful, vascularized ulcers  $\rightarrow$  lymphadenopathy

Tx: Azithromycin
